Air Quality Forecast for the UK

Issued by the Met Office

Today: Widespread Moderate air pollution is expected across central and western England, Wales and western Scotland due to the fine and warm conditions across the UK. Elsewhere mainly Low levels of air pollution.

Tomorrow: Generally Moderate levels of air pollution across the UK for Saturday, as the warm and largely dry conditions continue. Areas with Low levels of air pollution are likely to be limited.

Outlook: Although areas of Moderate air pollution are expected they will gradually reduce through the period, with predominantly Low levels of air pollution developing.
